OUR PRODUCTS

ROLLER BLINDS

Versatile, functional, and nothing short of stylish, roller blinds make the perfect window accessory for your home. Easy to operate, roller blinds work perfectly behind curtains or as a replacement for bulkier drapes.

Today's varying quality fabrics mean that roller blinds are now suitable for any room in your home or office. The different fabrics make it possible to dim-out and black-out. With quality components for the operation system of our roller blinds it is easy to position at the desired point on the window.

We give our customers the opportunity to search for their ideal window furnishing by choosing the opacity of the fabric, the colour, style and any additional special features they would like. All of our orders are made to your exact specifications, and with each of our products being tested against a thorough quality control check before despatch, we can guarantee you blinds of only the highest quality.

Roller Blind features.

- **Available in multiple range of colours, designs, textures and patterns.**
- **Available in blackout, dim out and sunscreen.**
- **Digitalised printing can also be done in fabrics.**
- **Chain operations.**
- **Can be fully motorised and control with remote.**

- **Available in variety of silent motors by leading manufactures in the world.**
- **Multi channel remote controller for control the group window blinds.**
- **Can be controlled by timer, temperature and weather condition sensors.**
- **It is compatible with home automation technology like WT and DCT.**

OUR PRODUCTS

ROMAN BLINDS

Roman blinds have a classic attractive appearance, which suit both modern and traditional homes alike. The large horizontal pleats fold away neatly when your blinds is operated.

Whether you're creating a focal point, adding colour, or simply looking for a functional solution, roman blinds are an excellent choice. With plenty of shades and patterns to choose from, you can create a space you'll love in no time.

Roman blinds work by raising and lowering panels of material using a quality contemporary side chain control head rail system. They can be top ceiling fixed or face fixed to either the wall surface or the window frame.

Roman blinds features.

- **Available in multiple range of colours, designs, textures and patterns.**
- **Can be fully motorised and control with remote.**
- **Easy to operate.**
- **Have an attractive pleated appearance.**
- **It is suitable for large sized windows.**

Motorised roman blind features.

- **Available in variety of silent motors by leading manufactures in the world.**
- **Applicable for large sized windows.**
- **Multi channel remote controller for control the group window blinds.**
- **Can be controlled by timer, temperature and weather condition sensors.**
- **It is compatible with home automation technology like WT and DCT.**
- **Motorised operation ensures fabric is folded evenly.**

OUR PRODUCTS

ZEBRA BLINDS

A new innovation in window blinds textiles where striped fabrics across two layers creates the open and close effect. Double fabric of 'duo blind' designs feature two fabric layers, which move undependably from one another to allow for effort less control.

It offers verity of advantages over other horizontal blinds. It's light filtering fabrics provide a warm glow of diffused daylight when blinds are closed.

Zebra blinds features.

- **Available in multiple range of colours, designs, textures and patterns.**
- **Adjustable fabric layers give you extra control over light filtering.**
- **You can completely raise or lower the fabric like a normal roller blinds.**
- **Chain operations.**
- **Can be fully motorised and control with remote.**
- **Easy to operate.**

Motorised zebra blind features.

- **Available in verity of silent motors by leading manufactures in the world.**
- **Multi channel remote controller for control the group window blinds.**
- **Can be controlled by timer, temperature and weather condition sensors.**
- **It is compatible with home automation technology like WT and DCT.**

OUR PRODUCTS

VENETIAN BLINDS

A stylish choice of blind with ultimate control over light and privacy, making these ideal for bedrooms and bathrooms in particular.

A versatile option with two methods of control – the thin horizontal slats of Venetian blinds can be tilted using an unobtrusive wand as well as raised and lowered by cord. This means you can raise them fully to let in as much light as possible, lower them completely at night, or subtly adjust the slats for complete control over light levels.

Venetian blinds features.

- **Available in multiple range of colours.**
- **Effortlessly control the amount of light.**
- **Cord lift and wand tilt operation.**
- **Can be fully motorised and control with remote.**
- **Easy to operate.**
- **Light and versatile.**

Motorised venetian blind features.

- **Available in verity of silent motors by leading manufactures in the world.**
- **Multi channel remote controller for control the group window blinds.**
- **Can be controlled by timer, temperature and weather condition sensors.**
- **It is compatible with home automation technology like WT and DCT.**
- **Can be operated by only tilting the slats or combining the tilt function with lifting the blinds up and down.**

OUR PRODUCTS

WOODEN BLINDS

Fashionable and warm, wooden venetian blinds offer all the same benefits with a natural wooden look. Many different types of wooden slats are available along with great choice of colours.

Our wooden blinds are venetian-style and feature two methods of control. Using cords, you can tilt the horizontal slats to close completely or leave part open to let light filter through and raise or lower the whole blind.

Wooden blinds features.

- Available in multiple range of colours.
- Blocking UV rays and reducing solar heat.
- Cloth tapes are recommended for adding a rich look.
- Effortlessly control the amount of light.
- Cord lift and wand tilt operation for 25mm.
- Cord lift and tilt operation for 50mm.
- Can be fully motorised and control with remote.
- Easy to operate.

Motorised wooden blind features.

- Available in verity of silent motors by leading manufactures in the world.
- Multi channel remote controller for control the group window blinds.
- Remote control with scroll wheel available to adjust the slat positions.
- Can be controlled by timer, temperature and weather condition sensors.
- It is compatible with home automation technology like WT and DCT.
- Can be operated by only tilting the slats or combining the tilt function with lifting the blinds up and down.

OUR PRODUCTS

PANEL BLINDS

Panel track blinds, also known as sliding window panels or panel tracks. Offer a simple, versatile and stylish solution for patio doors, sliding glass doors or large picture windows. Each sliding window panel blind rides on an individually wheeled carrier or track for easy operation and modern appearance. These large fabric panels hang vertically and slide to reach open or closed positions. Panel track blinds can be mounted to the ceiling or the wall.

Available in numerous fabric, solar screen, sliding panel blinds are easy coordinate with any deco style as well as other window coverings in the room.

Panel blinds features.

- **Available in multiple range of colours.**
- **Digital printing is available in the fabrics.**
- **Effortlessly control the amount of light.**
- **Can be fully motorised and control with remote.**
- **Easy to operate.**

Motorised panel blind features.

- **Available in verity of silent motors by leading manufactures in the world.**
- **Applicable for theaters and large sized windows.**
- **Multi channel remote controller for control the group window blinds.**
- **Can be controlled by timer, temperature and weather condition sensors.**
- **Can be controlled by touch motions.**
- **It is compatible with home automation technology like WT and DCT.**

OUR PRODUCTS

VERTICAL BLINDS

Vertical blinds are made up of individual fabric strips that can be tilted and drawn using a dual bead chain option. In this way you can adjust the blind to let sunlight filter through, or close for privacy or shade. Vertical blinds can be drawn to one side of the window or split equally to each side for a more balanced look. This versatility offers excellent sun control for a full-length window.

Custom vertical blinds are made by the elongated proportional spacing of vanes in a heavy duty aluminium head rail for smooth operation. A classic style, the vertical blind comes in many more shades than you may think. From traditional beige shades to more vibrant purples, take a look at the range and find the ideal blind for your space.

Vertical blinds features.

- **Available in multiple range of colours.**
- **Cord and chain operations.**
- **Effortlessly control the amount of light.**
- **Can be fully motorised and control with remote.**
- **Easy to operate.**
- **Vertical blinds are suitable for large windows and sliding doors.**
